Solidsoft Counted Among Top Finalists for the 2008 Microsoft Partner of the Year Award in Business Process and Integration Solutions

Basingstoke, UK – 16 June 2008:

Today Solidsoft announced it has been selected as a finalist for the Microsoft Partner of the Year award in Business Process and Integration Solutions.

“I am delighted to see the great work that Solidsoft consultants have done for our clients continues to be recognised by Microsoft as amongst the very best in the world”, *says Garth Pickup, CEO of Solidsoft.* “To be in the top three companies out of several hundred thousand partners is a great achievement that our staff can be very proud of.”

The Microsoft Partner Program Awards recognise Microsoft partners that have developed and delivered exceptional Microsoft-based solutions over the past year. The Business Process and Integration Solutions Partner of the Year award recognises partners with best practices for selling and deploying business process management (BPM) and integration solutions. This award is intended for system integrators, solution and service providers, and software developers that concentrate on service oriented architectures (SOA), enterprise application integration (EAI), business-to-business (B2B) application integration, business process management (BPM), and adapter development using Microsoft BizTalk Server.

“Partners are critical to delivering rich business solutions and innovative excellence to customers,” *says Allison Watson, Corporate Vice President, Worldwide Partner Group, Microsoft.* “Congratulations to the 2008 Partner Award finalists and winners who have each demonstrated innovation beyond measure and an unswerving commitment to delivering the highest levels of customer satisfaction. We look forward to these partners continuing to raise the bar in the design and deployment of customer solutions built on Microsoft technologies”.

About Solidsoft:

Solidsoft is the UK’s leading provider of Microsoft based SOA and BPM solutions. As Microsoft’s Global Partner of the Year for Business Process and Integration (BPI) 2006-07 and now BPI Finalist 2008, Solidsoft has the most extensive experience in deploying enterprise scale solutions based on Microsoft BizTalk Server, MOSS 2007 and .NET Framework. Solutions include EAI, Trading Partner Integration, SOA and ESB Design and Delivery, and Integrated Business Forms. Solidsoft is a member of both Microsoft’s Worldwide Partner Advisory Council for SOA and BPM, and Microsoft’s UK Architect Council. Solidsoft works within all business sectors and has customers that include BP, Marks & Spencer, WS Atkins, Unum and the UK Cabinet Office. For more information, please visit www.solidsoft.com
